

João Henrique Gomes da Costa Cavalcanti

Brazilian, 26 years old.

Address: Ulloi Ut,36, Budapest, 3 floor, door 12/a

Contact: +36705159419

E-mail: jh_gcc@hotmail.com

ACADEMICS

High School concluded at CEI high school, Natal, Brazil (2011).

1 year as Exchange student at Green Forest High School. Silver student scholarship awarded Green Forest, AR, USA (2010-2011).

Production engineer - Universidade Federal do Rio Grande do Norte, ranked as the 601–800th best engineering and technology university of the world by THE rank, 5 years programme with full scholarship (2012-2018).

Awarded for Science Without Borders scholarship studying Engineering Business Management for 1 year at University of Dunaujváros, Hungary (2013-2014).

Awarded for Stipendium Hungaricum scholarship to study Msc in Applied mathematics at BME (2018) not concluded.

Awarded for Stipendium Hungaricum scholarship to study Engineering Management at University of Debrecen (2019-2020).

PROFESSIONAL EXPERIENCE

Macro and Web tools specialist intern at Vodafone (VSSB). Creating/maintaining React, Angular, JQuery and pure Javascript web applications. Developing VBA automations and web crawlers. Developing VBScripts (2019-Currently employed).

Production analyst at Decoled Led industry. Working with VBA automations, stock management, logistics, planning and control of production, problem solving, economic analyses and engineering. (2015-2017).

Teacher of 2 mini courses about VBA programming at Universidade Federal do Rio Grande do Norte (2017).

Creator of ARRANCELL, a system to plan and optimize production cells layout using **Rank Order Clustering**, programmed in VBA, patented in the Brazilian National Institute of Industrial Property (2017).

Creator of Sunnynvest a system to analyze economic feasibility of investments in solar photovoltaic power plants, programmed in VBA(re-programmed in python/django), patented in the Brazilian National Institute of Industrial property. www.sunnynvest.com. **Technologies used: django, Javascript, python, HTML, CSS, jquery, Sass, bootstrap, Git, UI, UX, fully responsive cross browser application.**

Member as a solar energy researcher at CRIAÇÃO research group (Universidade Federal do Rio Grande do Norte), lecturing in scientific congress, developing technologies with solar energy and projecting a solar system for a brazilian public school (2018)

Engineering consultant at Decoled Led Industry planning the layout, costs, energy production and economic feasibility of a 5MW photovoltaic power plant (2017).

Engineering consultant at SEBRAE-RN planning the layout, costs, energy production and economic feasibility of a 1MW photovoltaic power plant (2017-2018).

Creator of Whatsapp Automation, Using VBA and selenium: <https://www.youtube.com/watch?v=-IIFqiDZJAw>, 4 sales done and more than 200 downloads done (2019).

Online teacher of 1 youtube mini course of VBA programming : <https://www.youtube.com/watch?v=vIIPB5Ykzcw&list=PLC6vuloaUCnkJYyos-yGPovCgroyypeJZ> (2018).

Consultant at IFRN-PE developing a system for mathematics learning, programmed in VBA (2018).

Consultant at Veneza car mechanics developing a management system (2018).

Independent consultant and founder at Jhengerharia developing Projects in python, VBA, finances, management, costs, solar energy and engineering (2017-2019).

Consultant at WORKANA project successfully ended, developed a macro in VBA and selenium for web crawling (2019).

Consultant at VBA Systems (Sao Paulo, Brazil), developed a macro in VBA/Access, selenium for web crawling and to insert data from a pdf to ACCESS database (2019).

Consultant at VBA Systems (Sao Paulo, Brazil), developed a macro in VBA, to integrate MS Excel with Google Sheets API (2019).

Microsoft Forum with 280 points achieved, being ranked between 200- 300 most helpful participants during the months of November and December with more than 70 answers done (2018).

LANGUAGES

Portuguese - Fluent.

English - Fluent.

Spanish – Good Knowledge.

French - Basic.

SKILLS

Javascript.

React.js.

React Native.

Jquery.

Angular.

MS Excel.

VBA programming.

VBscripts.

Webcrawling and Webscraping (Selenium, BeautifulSoup other libraries).

Python and scientific libraries (Pandas, Scipy, Numpy, Scikit-learn).

Django.

SCSS

LESS

CSS animations

HTML, CSS, Bootstrap.

Object-oriented programming.

Minitab statistics.

MATLAB programming.

SQL programming.

MS Access.

Scrum.

Linux.

Git.

MS Visio, process mapping and process improvement.

CERTIFICATIONS

Certified value analyst (SAVE International).

Certified photovoltaic power plant planner (TECHSUN, Brazil).

Certified manager of wind energy power plants (Universidade portiguar, Brazil).

Certified photovoltaic power plant planner (Universidade Estadual de Campinas, Brazil).

Certified 6 sigma White belt (FM2S, Brazil).

Certified 6 sigma Green belt (FM2S, Brazil).

Certified 6 sigma Black belt certification (FM2S, Brazil).

Certified advanced VBA programmer (Regional Institute of Engineering, Brazil).

Concluded Datacamp course Python for data science.

Certified EMPRETEC participant (SEBRAE-RN, United Nations Oficial lecturer in Brazil).
